Permanent Measure

_____ inches

If a handler has an actual written measure from another organization and presents that card to the measurer that day, UKI will grandfather and accept that as the measure for the dog, provided that measure is not within 1/8 inch (3mm) of a UKI jump height cutoff.

If the dog is age two or over, the dog will only need one measurement.

To receive a permanent jump height measurement, dogs must either be competing at 22 or 24 inch jump height (20 inch Select Option) or must be two years of age.
